It seems necessary and convenient to reserve a separate chapter for Main Municipalities (XV)

If approved, it is desirable to make a list of the provisions of the Municipal Act which are too complex and declare them to be inapplicable to Main Municipalities.

This list may be added in the form of a schedule (VIII)

5. The letter of 2nd Aug. 1916 appears to have been issued under the authority of the Sol-Genl & does not seem to have been brought to the notice of the Cabt or of the Ministry. There is no doubt that the other proposed amendments are all more or less important, the best way to consider them is to bind them all together in one bill, the amendments arising out of the Govt order on the L.S.G. scheme being considered in another bill (which is already ready)

is including all these proposals by Order in Council possible

Special duty, Bangalore.

Sir,

With reference to your letter No. 205-14/L. G. dated 30th March 1917 forwarding 30 copies of the Draft bill amending the Municipal Regulation and requesting me to submit the views and suggestions of the Municipal Council thereon, I have the honour to state that the Municipal Council in their meeting held on the 7th instant appointed a Sub-Committee consisting of the marginally noted members to study the Draft bill and report to the Municipal Council.

2. In accordance therewith, the Sub-Committee met on the 22nd instant, and having carefully gone through the Bill submitted a report, copy of which is herein enclosed for your information.

3. It will be seen therefrom that they have fully approved of the Bill with a slight modification in clause (11) of the amendments to Section 59. But they suggest the desirability of amending the whole of the Municipal Regulation on the lines indicated in Resolution No.8 of the Local Board's and Municipal Conference and also in the Memorandum read there. They also recommend that suitable provision should be made in

1. Mr. G. Narayana Rao, B.A., B.L., Vice-President (Chairman).
2. Mr. N. Sreekantiah,
3. Mr L. Venkatakrishniah.,
4. Mr. Mohammad Jaffer Sahib,
5. Mr. C Ranjappa, B.A.,
6. Mr. H. Seetharamiah.,
7. Rao Bahadur Mr M.C. Rangaiengar, B.A.,

in the Regulation so as to make over to this Municipality the land revenue on all agricultural lands within the limits of the Municipality, as is done in the Bangalore City.

4. With regard to all institutions receiving grants-in-aid or contributions from the Municipality, the Committee urge the necessity of making provision in the Regulation - authorising the Municipal Council to appoint a Committee of one or more Municipal Councillors to periodically inspect and report to the Council upon the condition and efficient working of those institutions.

5. The Municipal Council before whom the report was placed have approved the above suggestions with the observation that the shop-rent derived from Excise shops within the Municipal limits should also be given over to the Municipality that the Municipal Regulation should be ammended suitably to include the above. Vide their resolution No. I dated the 26th instant copy of which is also herein enclosed for ready reference.

6. I, therefore, request you to be so good as to place the above suggestions before Government and obtain their kind sanction.

I have the honour to be,

Sir,

Your most obedient servant,

President.

1. Read letter No. 205-14 dated 30th March 1917 from the Revenue Secretary on special Duty forwarding for opinion a Draft bill for amending the Municipal Regulation.

The Draft bill was read. The proposed amendments so far as they go are un-objectionable except as regards clause (ii) of the amendments to Section 59 which may be amended as follows -

For the words ' eight annas' the words ' not exceeding one rupee eight annas' be substituted.

But the Committee are strongly of the opinion that the Municipal Regulation which was passed so far back as 1906 should in view of the greatly altered conditions of the City and its inhabitants be brought into the Legislative Council for a general and thorough reconsideration and amendment.

The system of piecemeal amendments hitherto followed will not answer the purpose . At the Municipal and Local Boards ' Conference held in June 1915 it was unanimously resolved that the Government may be pleased to amend the Municipal Regulation in respect of matters dealt with particularly in Resolution No. 8 and also in the memorandum submitted to the

Proceedings of the 19th (Special) meeting of the Municipal Councillors for the City of Mysore held in the Nanjarajah Memorial Hall at 3 p.m. on Thursday the 26th April 1917.

AMENDMENTS TO THE MYSORE MUNICIPAL REGULATION

By G NARAYANA RAO B A B L Vice President
Mysore City Municipality

Mr President and Gentlemen,

The Municipal Regulation, No VII of 1906 has been in force for the last nine years having been first promulgated on 16th October 1906 I intend pointing out some difficulties and drawbacks found in the working of this Regulation during this period and to suggest some amendments thereto which I consider necessary to remedy the said defects

1 In some of the Municipal towns, especially in the larger Municipalities, some of the non official Municipal Councillors are appointed Honorary Bench Magistrates by Government and in their capacity as such they try and decide Municipal cases of the cities of which they are councillors Though their position as councillors is no disqualification for their trying municipal cases under section 565 of the Criminal Procedure Code, yet, both in the interests of the accused and the Municipal Council it seems necessary that gentlemen having no connection in any way with the Municipal Council should alone try and decide Municipal cases The natural anxiety of the Municipal Councillors to gain popularity amongst the ratepayers and voters on the one hand and their desire to uphold the Municipal administration on the other, cannot but render them interested judges Having this idea in mind the Madras District Municipalities Act, very wisely provides in section 10 A, clause (*d*) as follows —

"In order to be qualified to be appointed a Municipal Councillor, a person must not be an Honorary Magistrate for the Municipal Town unless in the case of his being an Honorary Magistrate, the Governor in Council exempts him from the disqualification '

I therefore suggest that a similar amendment may be adopted to section 15 of our Municipal Regulation as clause (v) to sub section (*a*) It should further be provided that in cases where exemption is granted the gentlemen should be precluded from trying any Municipal cases

2 In section 15, clause (2) (*e*) of the Municipal Regulation it is provided that if any Municipal Councillor fails without leave from the Municipal Council to attend any meeting of the Municipal Council for a period of four months provided that there shall have been not less than three such meetings within such period, he shall be disabled from continuing to be a councillor and his office shall become vacant This provision enables a councillor to attend every third monthly meeting only and absent himself for 8 meetings in a year It is not without the experience of the gentlemen present here that in some Municipalities, there are some councillors who actually absent themselves for half or more than half the number of meetings in a year and yet the above rule cannot be applied to them To remedy this defect and to stimulate more interest in the councillors in their local affairs it is suggested that the section be amended as follows —

In clause 2 (*e*) of section 15 for the words "to attend etc period ' substitute "to attend three consecutive meetings of the Municipal Council or to attend any four ordinary meetings within a period of 12 months provided that there shall have been not less than 10 such meetings within such period "

3 In section 26 clause (7) it is provided that in the case of a City Municipal Council, the number of councillors required to form a quorum shall be one third of the whole number of councillors, while in other Municipalities, the number is fixed at one half The reason for making the distinction is not apparent It seems necessary that in City Municipalities, where the councillors are expected to take a keener interest in Local Self Government than the councillors in mofussil Municipalities, a higher proportion should be insisted on Any decision arrived at by only one third of the whole number cannot be said to voice forth the opinion of the whole body So, it is suggested that the above clause be amended so as to provide the same proportion, *viz*, one half for all Municipalities, or, in case it is considered that one-half is too large for a City Municipality, the lower proportion, *viz*, one third may be fixed for all Municipalities as it is often found very difficult to get one half in the mofussil Municipalities This last proportion, *viz*, one third the whole number is in force in Bengal and Madras also for all District Municipalities

4 In section 31 of the Municipal Regulation it is provided that the number of persons who are not councillors appointed on any committee, shall not exceed one third of the total number of the members of such committee. This provision has the effect of excluding a number of willing and competent gentlemen from serving on committees and helping the Municipal administration The necessity of enlisting more and more of popular co operation in Municipal administration is quite obvious and the existence of a provision as above is clearly out of date It is therefore suggested that the proviso to this section may be omitted and the Municipal Councils given a free hand in fixing the number of non members to serve on committees

5 In section 40 clause (*2*) it is provided that the previous sanction of Government should be obtained in the case of every lease of immovable property, for a term exceeding seven years, and of every sale or other transfer of such property Recently, however, an amendment has been published in the *Mysore Gazette*, providing for such sanction being obtained only in the case of leases of immovable property for a period exceeding seven years and sale or other transfer of such property when the value exceeds Rs 500 in the case of City Municipalities and Rs 200 in other Municipalities But it seems necessary that the Municipal Councils should be given full powers of disposal over immovable property vested in them This will be a move in the right direction extending as it does the privileges and powers of Municipalities Moreover, this would avoid unnecessary correspondence and delay in disposing of building sites, etc It is suggested that the section be amended accordingly

6 There is no provision in the Municipal regulation and rules there under for the registration and licensing of vehicles and animals although such provisions exist in almost all the British Indian Municipalities The result has been that a large number of these are every year escaping taxation and the Municipal Councils are being deprived of their just income The present rules provide that forms should be given to all owners and got filled up and the vehicles and animals taxed as per information supplied by them This method, though theoretically perfect has been found in practice to be not very satisfactory as it is almost impossible to issue the forms to every house owner and to get the necessary information The result is we have to depend largely on the information of the shanbhogs or mutsaddis as to who are the owners of vehicles and animals By fixing the responsibility for registering the vehicles and animals on the owners, the likelihood of any omissions and consequent loss of revenue from this source will be entirely avoided Provision should therefore be made for insisting on the numbering and registration of all vehicles and the registration of all animals liable to taxation A sub clause (jj) to section 48 may be added as follows —

(jj) for the numbering and registration of all vehicles with or without springs and including motor vehicles, bicycles and tricycles liable to taxation under this regulation, also for the registration of all animals likewise liable to taxation

A new section similar to section 47 of the old Regulation III of 1888, may be added at the end of chapter VII as section 81A as follows providing

for penalty for non payment of vehicle tax and breach of byelaws framed under the new sub clause (jj) of section 48 —

81A "Any person being the owner or having the charge of any carriage, cart, vehicle or animal liable under this Regulation to taxation or registration, who shall without lawful excuse, fail to pay such tax and fees as may be due in respect of the same, or who shall fail to apply for such registration within the time appointed by the byelaws framed under section 48 of this Regulation, for such payment and registration, or who being the owner or in charge of any registered cart, carriage or other vehicle, shall fail to affix thereto, the proper registration number in such manner as the Municipal Council may direct, shall be liable on conviction to a fine not exceeding twenty rupees and to a further penalty of five rupees for every day after conviction during which he shall neglect to comply with the provisions of the regulation and the rules framed thereunder in this behalf

81B The President or any person duly authorized by him in that behalf, may at any time, seize and detain any cart or vehicle not registered as required by any byelaws framed under section 48, provided the same be not employed at the time of seizure in the conveyance of any passengers or goods

81C (1) If the cart or other vehicle seized under section 81B, be not claimed within 10 days from the date of seizure, the President may direct that such cart or vehicle shall be sold by public auction and that the proceeds of the sale shall be applied to the payment of (i) the tax due on the cart or other vehicle sold, and (ii) a sum of one rupee on account of charges incurred in connection with the seizure, detension and sale

(2) If the owner of the cart or other vehicle seized under section 81B, appear within 10 days from the date of seizure and claim the same, it shall be returned to him on payment of (i) the tax due thereon and (ii) a sum of eight annas on account of charges incurred in connection with the seizure and detention

7 In section 59 of the Municipal Regulation it is laid down that the tax on vacant lands should be recovered at two annas for every 80 square yards As the primary object of this tax is to induce the owners to build on the land, the tax imposed is too low to have any deterrent effect as will be evident from the large number of vacant sites allowed to remain unbuilt for years in almost all Municipalities In most cases, the sites are retained solely for speculative purposes With a view to induce the owners to build upon the sites in reasonable time and to secure a more adequate revenue to the Municipality from such sites, it is suggested that the section be amended as follows —

For the words "two annas for every 80 square yards" substitute "a sum not exceeding one rupee and eight annas for every 100 square yards as may be fixed by the Municipal Council"

8 In section 68 of the Municipal Regulation the mode of recovery of taxes from occupiers in default of owners is provided It is enacted that "such portion of the sum may be recovered from the occupier of any part of the buildings or lands in respect of which it is due, as bears to the whole amount due, the same ratio, which the rent annually payable by such occupier bears to the aggregate amount of rent so payable in respect of the whole of the said buildings or lands etc" According to the byelaws in force and the Municipal Account Manual, article 77, only an instalment equal to half year's tax on any building can be recovered Now the proportion above referred to may or may not be equal to the prescribed instalment of the tax It seems therefore necessary to amend the section so as to make it conform to the rules in force and to simplify the collection of taxes It is therefore suggested that in lieu of the first proviso to section 68, a provision as below, similar to section 110 of the Madras District Municipalities Act, be substituted

"If the tax due on account of any building or land remains unpaid at the end of the period for which it is due, the Municipal Council may, provided that the said tax has not been due for more than one year require the occupier for the time being, of such building or land, to pay the amount within a specified period

and if the occupier fails to comply with this requisition the Municipal Council may distrain and sell any movable property found on the premises and the provisions of sections 82, 83, 84, 85 and 86 shall *mutatis mutandis*, apply to all distraints and sales effected under this section, provided that no occupier shall be liable to a civil suit in respect of any sum recoverable from him under this section "

9 In section 82, provision is made for the presentation of a bill in the first instance and service of a notice of demand after 15 days This imposes much additional work on the Municipal collection staff, causes unnecessary delay in collection and has been found to serve no useful purpose Every house owner is given due intimation, whenever the assessment of his property is altered and there is no object in giving him intimation every half year about the tax he has to pay In the Madras Municipal Act, sections 178 and 179, provision is made for service of either a bill or notice only, before distraint This may be adopted here also The following amendments are therefore suggested —

In section 82, clause (1) (*b*) omit the words "shall, with the least practicable delay" and substitute "shall if the amount due is not paid", for the word "presented' substitute "served on or sent by post", and for the word "bill" occurring in this clause and in clause (2) substitute "notice" Omit clause (3)

In section 83 clause (1) for the words "service of such notice of demand" substitute "service or sending of such notice of demand' Add at the end "no fee shall be leviable on account of a notice served or sent under this section"

The above amendments provide also for cases in which it is found not possible to serve the notice in person, *e g*, in the case of absentee owners In such cases sending of the notices by post alone is possible

10 In all Municipal towns and cities there are many building sites, which have been allowed by the owners to remain vacant for a number of years Some of these seem to have been purchased more for speculation than for purposes of building It is therefore necessary to provide in the Regulation for compelling owners to build on or enclose the sites within a specified time Failing which the Municipal Council should have power to resume the sites

The additions to section 48 and the addition of a new section 91A above 92 as suggested by Government in circular letter No 4521 30—Ml 237 10-14, dated the 26th December 1912, may be adopted at an early date The proposed amendments with slight modifications recommended by the Mysore Municipal Council are appended

11 There is no provision in the Municipal Regulation empowering one Municipality to recover by coercive process taxes due to another Municipality, by a person residing in the former Municipality This seems to be a very necessary provision and it is suggested that an addition be made to section 83 accordingly

12 When any person has paid vehicle or animal tax for a certain period in one Municipality there is no provision for exempting such person from again paying the tax for the same animal or vehicle for the same period, if he removes to another Municipality during that period Such a provision is necessary to prevent a person being subjected to pay a tax twice over on account of the same property and for the same period It is therefore suggested that provision be made accordingly at the end of Chapter VIII of the Municipal Regulation Provision may also be made for the two Municipalities concerned adjusting their claims equitably as between themselves

13 According to existing provisions in the Municipal Regulation, the Municipal Council has got power only to distrain the moveable property of the defaulters for the recovery of any tax authorized as recoverable under Chapter VIII If by such distraint the whole of the tax is not recovered, the only remedy is to file a suit in the civil courts for the amount This procedure entails much delay, expense and trouble It is therefore suggested that a

provision similar to section 44, clause (2) of the Central Provinces Municipalities Act be added to section 87 of the Mysore Municipal Regulation as follows —

"(2) All sums due on account of any tax imposed in the form of a rate on lands or buildings or on both shall, subject to any claim on behalf of Government, be recoverable by the Municipal Council or by some person authorized generally or specially by the Municipal Council in this behalf, as if the property were land assessed to land revenue and the arrear were an arrear of such revenue due thereon

Provided that nothing in this sub section shall be deemed to authorize the arrest of a defaulter"

Similar provisions are in force in Punjab also

14 In all Municipalities, there are some house owners, who will not pay taxes due from them regularly, and who resist attempts to distrain movable property found in their premises, either by removing them somewhere or by openly obstructing the Municipal authorities or by locking up the house Distraints of movable property are also found very difficult in the case of persons who observe gosha, the males generally evading appearance at the time To meet such cases and to serve as a speedy remedy in the case of habitual defaulters, it is found necessary to have a provision similar to that contained in section 188 of the Madras Municipal Act providing for the prosecution of defaulters before a magistrate for non payment of taxes referred to in Chapter VIII The existence of large arrears in almost all Municipalities is a sufficient argument in favour of introducing this provision

This may be done by substituting the following for section 88 of the Municipal Regulation

"Instead of proceeding by distress and sale or in case of failure to realize by distress, the whole or any part of the sum due in respect of any tax recoverable in the manner provided in this chapter together with the expenses of such distress, the Municipal Council may prosecute before a magistrate any person liable in respect of any such tax or expenses due to the Municipal Council either during the current year in which such tax or expenses are due or at any subsequent or prior period allowed by the Law of Limitation The person bound to pay such tax or expenses and failing to pay the same, shall on conviction before a magistrate, be liable to a fine not exceeding twice the amount of the tax due

Such fine together with any costs of the prosecution which may be awarded by the magistrate shall be levied in the manner provided in section 161 clause (2) and not otherwise Provided that the managing committee have by a majority of votes, specially sanctioned the prosecution'

15 In large towns, hotels, tea and coffee shops, etc, are springing up in large numbers and very often no sanitary regulations are observed in their conduct In the interests of public health it is necessary that they should be regulated by Municipal law Power to frame byelaws in the matter is suggested to be given to the Municipal Council by the following amendment —

Section 48 I (*b*) after (ii) add (iii) "as a hotel, eating house, tea or coffee shop, restaurant, dining saloon, ærated water factory, bakery, refreshment room and the like' and number the present clause (iii) as (iv)

16 In order to prevent effectively the adulteration of milk, butter and ghee, byelaws have to be made requiring vendors to affix labels, sign boards, etc, declaring the nature of the articles sold

An amendment as below is suggested to section 48

Section 48 (*e*) (ii)—Add at the end "and for preventing fraud as to the quality of milk, butter or ghee sold by such men'

17 Though the Weights and Measures Regulation and Rules have been in force in all towns there are still cases of use of weights and measures not authorized by law With a view to enable the Municipal Council to

exercise efficient control in the matter, it is necessary that they should be empowered to test such weights and measures and stamp them every year in token of such testing The following provision is therefore suggested —

Section 48 - After (*f*) add at the end "for requiring weights and measures to be stamped by Municipal authorities '

18 Section 96 should be amended so as to make its language more exact and empowering the Municipal Council to refuse permission and prohibit the proposed construction, etc , for reasons to be stated in writing which should be communicated to the person giving the notice

19 In section 97 of the Municipal Regulation, any person wishing to erect a hut or range of huts is required to give notice to the Municipal Council and obtain their permission This provision seems to work as a hardship in the case of the smaller Municipalities, where poor persons such as lambanis, wadders, etc , have to build huts and also in cases where townspeople have to erect huts on account of plague and other epidemics It is therefore necessary that the Municipal Council should have power to exempt such huts from the requirements of this section It is suggested that a provision similar to section 180 of the Madras District Municipalities Act be adopted here as follows —

"(2) The Municipal Council may, however, exempt any hut or groups of huts from the operation of this section and section 94 "

20 In section 122, clause (1) provision is made for punishment in case of obstructions and encroachments upon public streets and open spaces, but in some cases even after punishment, the encroachment or obstruction is not removed Hence it is necessary to provide for a continuing fine as in sub-section (3) In sub section (2) of this section the words "obstruction or encroachment ' only are used while in sub section (1) projections and deposits are dealt with separately It is therefore necessary to introduce these words also in sub section (2) The following amendments are therefore suggested —

Section 122 (1) Add at the end -" with further fine which may extend to ten rupees per every day on which such projection, encroachment, obstruction or deposit continues after the date of the first conviction for such offence "

In sub section (2) of 122—For "obstruction or encroachment" wherever it occurs, in this sub section, substitute "projection, encroachment, obstruction or deposit '

21 It is very often necessary before taking action under this regulation, to collect and ascertain facts such as in cases of mutation of names in assessment registers rights to vacant lands, disputes regarding payment of taxes by joint owners, identification of impounded cattle when refunds are claimed, etc In all such cases, the examination of persons and the production of documents will have to be insisted upon There is no provision in the regulation giving the Municipal Council any powers for requiring the attendance of witnesses or the production of documents It is therefore proposed that the following be added as section 154 A

"For the purpose of enquiries to be made under this Regulation the President or such other officer to whom he may delegate his power in this behalf, shall have power to summon and enforce the attendance of witnesses to examine them and to compel the production of documents in the manner provided for in the Civil Procedure Code "

22 Very often difficulties arise as to the ratable proportion to be contributed by joint owners and municipal recoveries are delayed in consequence It is therefore proposed that a section 157 A be added enabling Municipalities to fix a proportion on *prima facie* grounds leaving the parties to get their rights settled in the civil courts After section 157 add —

"157 A Whenever any money is recoverable by the Municipality under this Regulation, from more than one person either on account of a tax or any other account, it shall be lawful for the Municipality to determine summarily the proportion to be recovered from each of such persons and make recovery

accordingly Nothing in this section shall prevent any person from whom any amount is recovered in excess of his liability to recover such excess from the person or persons liable to pay the same to the Municipality

23 There is no provision in the Municipal Regulation authorizing the recovery of rents of shops and stalls in a summary way under Chapter VIII If the person concerned fail to pay, recourse will have to be had to civil courts This is clearly very inconvenient and leads to unnecessary delay and trouble It is therefore proposed that the following section be added after section 165 —

"165 A All amounts due on account of rent from any person to a Municipal Council in respect of any land or building vested in such Municipal Council or under its control, shall be recoverable in the same manner as an amount claimed on account of any tax recoverable under Chapter VIII "

24 In the interests of efficient Municipal administration, it seems necessary that the Municipal Council should be empowered to accept composition for offences against the Municipal Regulation The object is to provide a means of avoiding the necessity of continuing prosecutions in cases where the offender is willing to make sufficient reparation to the Council Such a provision exists in the Civil and Military Station, Bangalore and in the Forest and Excise Departments of our State It is suggested that a section similar to section 177 of the Bangalore Municipal Law of 1897, be added at the end of Chapter X of the Municipal Regulation

25 In section 168 clause (2) police officers are required to give information of Municipal offences to the Municipal Council and to assist all Municipal officers and servants in the exercise of their lawful authority In practice, however, the police are not as helpful to the Municipal administration as could be desired It is therefore, suggested that the duties and responsibilities of the police officers should be more clearly defined With this end in view it is proposed that instead of clause (2) of section 168 which may be omitted a new section 168 A as follows based on section 282 of the Madras District Municipalities Act be added

"168A Every police officer shall give immediate information to the President of any offence committed contrary to the provisions of this Regulation or the byelaws made in pursuance thereof and shall help the President or his subordinates in giving effect to the provisions of this Regulation in such manner and at such time as may be necessary

(2) Any police officer may arrest any person committing in his view any offence against any of the provisions of this Regulation if the name and address of such person be unknown to him and if such person decline to give his name and address, or if the police officer shall have reason to doubt the accuracy of such name and address, if given and such person may be detained at the station house until his name and address shall be correctly ascertained

(3) Any Police officer who omits or refuses to perform any duty imposed on him by this Regulation shall be deemed to have committed an offence under section 33 of the Mysore Police Regulation

26 At present mohatarfa tax, which is not authorized by the Municipal Regulation is being levied under the old rules It seems necessary that only taxes authorized by the Regulation should be levied But the replacement of mohatarfa tax by profession taxes under the Municipal Regulation has been rendered practically impossible by the scale of the latter being comparatively much lower than that of the former, *e g*, while under the former each shop keeper has to pay the tax, the latter as it stands at present exempts all whose incomes are less than Rs 100 per month It is therefore proposed that schedule III of schedule of taxes on arts professions, etc be so altered as to correspond with the schedule A of the Madras District Municipalities Act which provides for the levy of a graduated tax varying from 1 to 100 rupees per annum with an income of Rs 30 per mensem as the taxable minimum

Sir,

In continuation of my letter No. G. C. 437-2 dated 9th April 1917, I have the honor to request that you will be so good as to move Government to authorise me to attend the meeting of any Municipal Council in the State and to take part in the deliberations when any Sanitary matter of importance which might be under the consideration of any local body is discussed. Such attendance will of course be very occasional but it will greatly help my work of enlisting increased active attention of the council to the local Sanitary needs. All that seems necessary is the inclusion of the Sanitary Commissioner among the officers that may attend a Municipal meeting under section 26 (14) of the Mysore Municipal Regulations.

Sir,

With reference to your letter No. 205-14/L.A.S. dated the March 1917 and in continuation of para 1 of my letter No. 436 dated the 26th May 1917, I have the honor to submit herewith, for the information and orders of Government, copy of resolution of the cipal Council dated the 20th May 1917 embodying the opinion of Council on the Draft Bill amending the Municipal Regulation.

I have the honor to be,
Sir,
Your most obedient servant,

For Hon: President.

C.R.O.

local conditions were such as to justify the immediate introduction of the Local Self Government Scheme in its entirety in the City, may be considered before proceeding with the subjects on the agenda.

Mr. Mahomed Abbas Khan seconded the proposal.

Resolution.- The City Municipal Council has enjoyed a comparatively large measure of Local Self Government for several years and considers further discussion on the subject unnecessary, as in the opinion of the Council, the time is quite ripe for a forward step in this direction.

2. Mr. D. Venkataramayya proposed that in view of the obvious deficiencies of a Provincial enactment like the Mysore Municipal Regulation VII of 1906 with regard to its applicability to the Bangalore City Municipality, a special regulation to suit the requirements of the City Municipal Council may be drafted instead of endeavouring to amend a Regulation which has to serve Municipalities in varying stages of development.

Seconded by Mr. S Venkatrangiengar.

Resolution.- The Municipal Council agree with Mr. D. Venkataramaiah's views, but, pending the drafting of such a regulation and its passing into Law, would amend the existing regulation as proposed to suit the present requirements as far as possible.

The draft bill to further amend the Mysore Municipal Regulation VII of 1906 was then taken up for consideration.

3. The insertion of Sub-Section (1-A) and(1-B) to Section 3 was approved.

4. Instead of the proposed amendment to the proviso to Sub-Section (1) of Section 10, it was resolved that the following be adopted with reference to the Bangalore City Municipality viz:

"Provided that the City Municipal Council shall consist entirely of elected Councillors, except the ex-officio and ex-

next

expert members of the Council to be nominated by Government, not exceeding one quarter of the total number of Councillors".

5. The insertion of the 8th Sub-Section to Section 23 regarding remuneration to the President of the City Municipal Council.

Resolution.- The Municipal Council enter a strong protest against any such provision being made in the Regulation as it would be inconsistent with the entire spirit of the Local Self Government Scheme and would respectfully recommend its deletion.

In view of the practice said to prevail in America to elect the President of the United States, the following proviso to Section 23 (2) after (C) was proposed by Mr. K.K. Krishnamurthi Rao and seconded by Mr. M. Basavayya Viz

"Provided that in the Bangalore City Municipality, the President and the Vice President, shall, instead of being elected by the Council, be elected by the entire body of rate payers on an electorial basis to be approved by Government".

6. New Section 25-A to Chapter II re appointment of Chief Officer and his powers and duties.

Resolution.- As the appointment of a Chief Officer and his powers and duties with respect to City Municipal Councils are dealt with in Sections 182 and 185 of the Municipal Regulation, the Council recommend that in the marginal note as well as in the body of the proposed new Section then in Chapter II it may be explicitly stated that the provision is in respect of Town Municipal Councils and other Municipalities.

7. Instead of the proposed amendment to clause (b) (ii) of Section 46, it was resolved that the following be adopted viz.

"Subject to Sections 25-A, 188 and 184, the staff of officers and servants to be employed x x x

8. The proposed addition of Section 58-A in Chapter VI was approved.

9. Instead of the proposed amendment to clause (i) of Section 59, it was resolved that the following be adopted viz.

(Any Municipal Council x x may impose x x a rate on buildings or lands or both not exceeding in any case) "six per centum on the annual letting value in City Municipalities and such other Municipalities as may be specified by Government".

10. The proposed amendment to Sub-Section (2) (i) of Section 59 was approved by a majority of 13 against 4.

11. The amendment of Sub-Section 2 of Section 169 in the proposed manner was approved.

12. It was further resolved unanimously that the following proviso may be inserted after the last sentence in Sub-Section (2) of Section 169 Viz:

"Provided that the budget estimates of the Bangalore City Municipal Council shall be submitted direct to Government".

13. With regard to the new Chapter XIV proposed to be added the 2nd alternative proposal in the draft bill was approved.

Note.- In addition to the preceding subjects specified in the Draft Bill, the Council resolved to recommend the following additional amendments.

14. In Section 48 (1) (c) add "Licensing and" before "Inspection" so that the Sub-Section may read -

"Providing for the Licensing and Inspection of Hotels, bakeries, sweet meat shops x x x x".

15. In Section 48 (1) (jj) insert "," instead of "and" before "Registration" and add "Licensing" after "Registration" so that the Sub-Section may read -

"For the numbering, registration and licensing of any motor vehicle x x x x ".

16. In Section 56 add an additional Sub-Section "m" as follows:-

~~Sub~~ " (m) With the previous sanction of Government, loans to Municipal servants for purposes of house building or for the purchase of motor or other vehicles necessary for their work".

" (2) Where any toll is leased under this Section, any person employed by the Lessee to collect such toll shall, subje to the conditions of the lease, have the powers referred to in Sub-Sections (1) & (2) of Section 79

"Provided that no article distrained may be sold except under the orders of the Municipality.

18. Add the following proviso to Sub-Section (1) of Section 182 Vis:

"Provided that it shall be incumbent on every City Municipal Council, where the President and the Vice President are bo elected or Honorary to appoint a Chief Officer".

The consideration of the other questions was deferred fo want of time.
